**Dance of Thieves** Mary E. Pearson, 2018-08-07 When outlaw leader meets reformed thief a cat and mouse game of false moves ensues bringing them intimately together in a battle that may cost them their lives and their hearts *Applied Critical Leadership in Education* Lorri J. Santamaría, Andrés P. Santamaría, 2013-06-17 This book explores an exciting new critical leadership model arising from critical theory and critical pedagogy traditions and provides examples of applied critical leadership ultimately expanding ways to think about current leadership models Challenging Dominant Views on Student Behaviour at School Anna Sullivan, Bruce Johnson, Bill Lucas, 2016-05-20 This is a deliberately provocative book It critiques current student behaviour management practices seeks to explain the flawed assumptions that justify those practices and proposes how things could be better for children in our schools if different practices were adopted It is one of the few books to offer alternative ways of addressing the issues associated with student behaviour at school and exposes the field to serious and sustained critique from both a research perspective and a children s rights ideological stance The authors address the following questions What ideas dominate current thinking on student behaviour at school What are the policy drivers for current practices What is wrong with common behaviour approaches What key ideologies justify these approaches How can we present ethical alternatives to current approaches How can a human rights perspective contribute to the development of alternative approaches In exploring these questions and some ethical alternatives to the status quo the authors suggest practical ways to answer back to calls for more authoritarian responses to student behaviour within our schools In doing so the authors advocate for reforms on behalf of children and in their interests Bridging Educational Leadership, Curriculum Theory and Didaktik Michael Uljens, Rose M Ylimaki, 2020-10-08 This volume argues for the need of a common ground that bridges leadership studies curriculum theory and Didaktik It proposes a non affirmative education theory and its core concepts along with discursive institutionalism as an analytical tool to bridge these fields It concludes with implications of its coherent theoretical framing for future empirical research Recent neoliberal policies and transnational governance practices point toward new tensions in nation state education These challenges affect governance leadership and curriculum involving changes in aims and values that demand coherence Yet the traditionally disparate fields of educational leadership curriculum theory and Didaktik have developed separately both in terms of approaches to theory and theorizing in USA Europe and Asia and in the ways in which these theoretical traditions have informed empirical studies over time An additional aspect is that modern education theory was developed in relation to nation state education which in the meantime has become more complicated due to issues of globopolitanism This volume examines the current state of affairs and addresses the issues involved In doing so it opens up a space for a renewed and thoughtful dialogue to rethink and re theorize these traditions with non affirmative education theory moving beyond social reproduction and social transformation perspectives This work was published by Saint Philip Street Press pursuant to a Creative Commons license
